Meet Daxini

♠ Ahmedabad, India

meetdaxini.pythonanywhere.com

EXPERIENCE

Swan Softweb Solutions

Ahmedabad, India 11/2020 - Present

Python Developer

Worked on developing and deploying Web apps and REST APIs using Django and Flask. Used
PostsgresQL, DynamoDB, MongoDb and MySQL as databases. Created a pipeline to transfer all data
from DynamoDB to Athena to generate charts and reports on QuickSight periodically. Configured celery
and redis for background tasks and cron jobs.

EDUCATION

Bachelor of Engineering in Information Technology (CGPA: 8.05/10.0)

Sal College of Engineering

08/2016 - 08/2020Ahmedabad, India

PROGRAMMING SKILLS

- Proficient in: Python, Django, Django Rest Framework, HTML, CSS
- Familiar with: Flask, JavaScript, MongoDB, PostgresQL, DynamoDB, boto3, Docker
- Operating System: Windows and Linux (Ubuntu/Debian)
- Version Control: Git

Projects

• Alot Todo (O meetdaxini/Alot_Todo): Alot Todo is a multi-user task manager web app made built using Django, HTML, CSS and Bootstrap. It is deployed using Heroku and PostgreSQL. Project is live at:

% alot-todo.herokuapp.com

• Movie Recommender (O meetdaxini/movie-recommender-project): Built using Django, HTML, CSS and Bootstrap. It is deployed by using a Docker Container, Google Cloud Run, Google Cloud SQL(PostgreSQL). It uses external APIs for getting movies data and recommendations & also saves the movies data in the database so next time the same movie data will not be fetched from external api. Project is live at:

🗞 movie-recommender-project-mdsqpgljvq-uc.a.run.app

- Faces from Keywords (O meetdaxini/Faces_from_Keywords): In this project, I did character recognition using pytesseract on news paper clippings to find a particular keywords and if the keywords matched, then just the human faces in that image are cropped into contact sheet using openCV, numpy, Pillow.
- My Portfolio (meetdaxini/my_portfolio): Simple portfolio of mine built using Django as back-end and HTML, CSS and Javascript for the front-end. Check it out at:
